

16 July 1980

MEMORANDUM FOR: Legislative Counsel
FROM: Director of Central Intelligence
SUBJECT: Conversation with Senator Barry Goldwater,
14 July 1980

1. I called on Senator Barry Goldwater at the Andrews Air Force Base hospital and spent about 15 minutes with him. (He indicated he was due for some medication and wanted to break it off.) He said he is going to the convention on Tuesday, but also said he had another couple of weeks in the hospital before he could get onto an out-patient status. I presume he will come back from Detroit and go back into the hospital. I did not get to either of the topics you suggested; I just didn't find the right opening and was a little surprised when he indicated we ought to break off. (C/NF)

2. When we were talking about the convention, however, I did mention an interest in stories we have been hearing about a possible major reorganization of intelligence in the Reagan Administration. He stressed to me that there was nothing to worry about here; he would take care of all this. (C/NF)
